SUMMARY

I'm a Full Stack Web Developer, who at times works with C++ and Python. I love solving complex problems and enjoy the occasional HackerRank problem. I've spent the past 7 years indulging in coffee, early mornings, and late nights learning and exploring frameworks and beautiful code on GitHub.

SKILLS

React Native | ReactJS | Node.js | Express.js | Next.js | GraphQL | JavaScript | CSS | HTML | Python | Django | MongoDB | MySQL | PostgreSQL | REST APIs | bcrypt | JWT | Socket.io | PassportJS | AWS S3 | AWS EC2 | C++ | Qt | Linux | Mac | Windows | RHEL | Fedora | CentOS | Git | Docker | Kubernetes | Vim | Object Oriented Programming | Data Structures | Design Patterns

EXPERIENCE
